### Pre - access declaration

I understand that:-

1. Official fixed aids have a DYOCAP tag and are listed on the website at [www.dyo.org.uk](http://www.dyo.org.uk). Though installed, inspected and maintained by experienced cavers, aids should be carefully checked before use. Cavers use these aids at their own risk and are strongly advised to use additional safety measures, such as lifelines or cows' tails, wherever possible. Any signs of wear or damage to fixed aids are to be reported to DYOCAP immediately after the trip, using the form on the website. Any other ropes, ladders or other aids found in the cave are unofficial and should not be used.
2. This is not an arrangement for rescue callout.
3. **The Warden is personally responsible for checking that all members of the party are insured as cavers under the BCA scheme. BCA insurance numbers of each caver must be entered on the form.**

Name of Warden for the trip \_\_\_\_\_ Warden Number (on permit card) \_\_\_\_\_

Signature of Warden \_\_\_\_\_ Date of the trip \_\_\_\_\_

Destination in the cave,  1937 Series,  Round Trip,  Far North,  Other, please specify \_\_\_\_\_

## Notes on completing this form

1. This form is to be checked by the warden and left at the showcave ticket office before the trip.  
A letter box is provided on the back wall of the ticket office for use when the ticket office is closed
2. Access to Dan yr Ogof is granted subject to the rules published on the DYOCAP website.
3. It is the Warden's responsibility to ensure that all members of the party are covered by BCA insurance. This is best achieved by sight of a current BCA membership card and entering the card number on the form. Evidence of current membership of a BCA-insured club is an acceptable alternative but please ensure that the club name is entered clearly.
4. Parties are reminded to make their own arrangements for callout in case they become overdue – for example by using the trip board at South Wales Caving Club.
5. A dragon logo must be left in the windscreen of all cavers' cars prior to entering the cave.
